

Innocard Minerva

PE1601

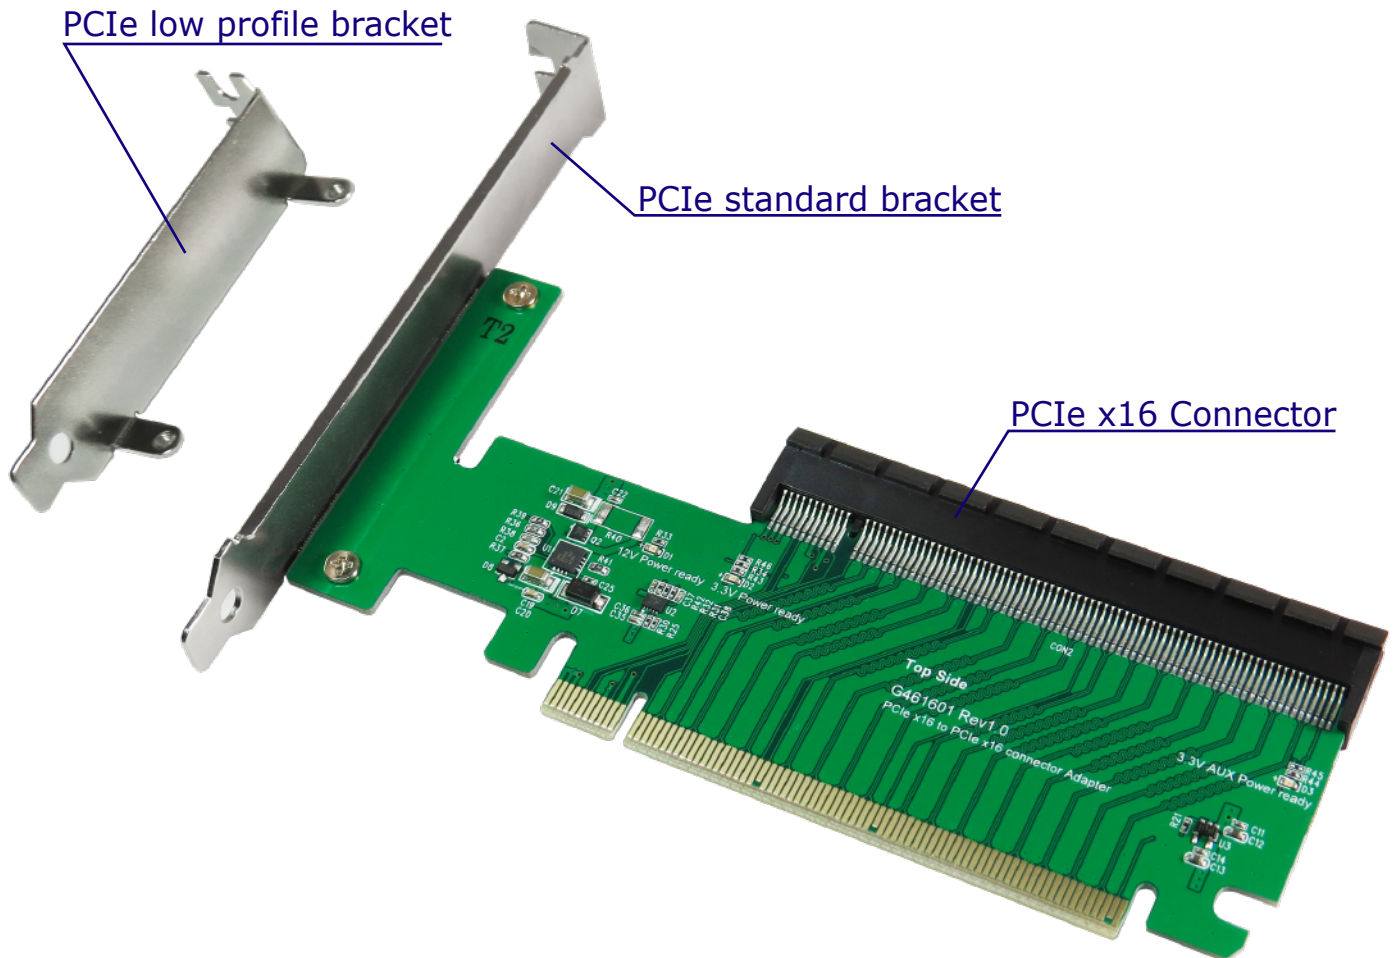

PCIe x16 Golden Finger to PCIe x16 slot Riser Card

※ PCIe Single-width, passive riser/slot saver installs in standard PCIe slot and supports x1, x4, x8, x16 signals add-in card.

PCIe x16 Golden Finger to PCIe x16 slot Riser Card

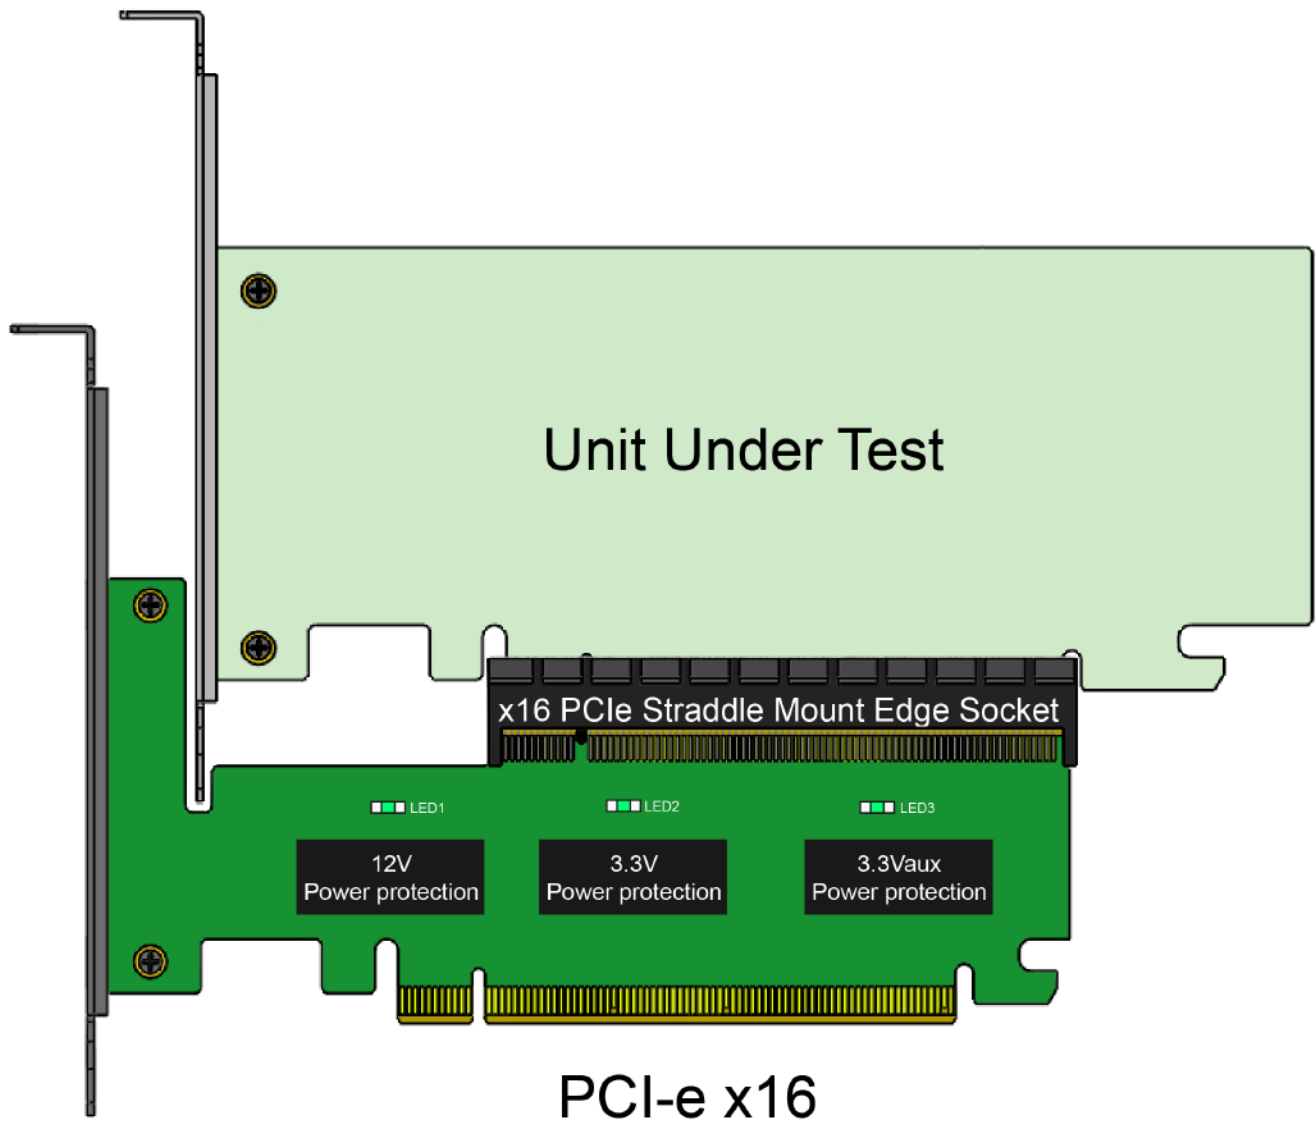

※ PCIe Single-width, passive riser/slot saver installs in standard PCIe slot and supports x1, x4, x8, x16 signals add-in card.

Features

- ※ PCIe x16 card edge / PCIe x16 slot
- ※ PCIe Gen 3 / 16 lanes signals of PCIe designated
- ※ 4 Layer PCB designed
- ※ +12V Hotswap power protection, Maximum Programmable Current Limit: 6.5A
- ※ +3.3V Load Switch power protection, 5A Maximum Continuous Switch Current
- ※ 3.3Vaux Hop plug power IC protection, 500mA Continuous Current
- ※ D1 Green led on indicates +12V Power ready
- ※ D2 Green led on indicates +3.3V Power ready
- ※ D3 Green led on indicates 3.3Vaux Power ready
